End-Point Projects

Projects	Current Project Lead	Target Description	Comments
PFENNING ALPHA	REDACTED	Flag Telecom	Secure access unless transfers to reliance linux infrastructure. Weekly automated pulls of flag router monitoring webpages and we are pulling perf statistics for GTE. Tier 1 network and EREPO team keen to see if specific areas to exploit. Currently light-touch but expected to take 1/2 an FTE going forward.Moving towards gaining additional entry/exit points on the RELIANCE side of the network.
